Genetics and farm animal breeding

1. M. Bugno, E. Słota, M. Tischner Jr, M. Tischner — X chromosome monosomy as one of the reasons for reduced fertility or infertility in the mare 207
2. T. Ząbek, M. Duniec, M. Bugno — Genetic relationships between Silesian, Thoroughbred and Oldenburg horses based on DNA microsatellite polymorphism 213
3. A. Nogaj, J. Nogaj, A. Stachurska — Erythrocyte antigen polymorphism in Felin Pony population in comparison to initial breeds 225
4. A. Nogaj, J. Nogaj, E. Słota, T. Ząbek — Genetic structure of the Biłgoraj horse population based on the analysis of genetic markers 235
5. K. Walawski, R. Ziemiński, A. Novokszonov, U. Czarnik, T. Zabołewicz, Ch. S. Pareek — Association between beta-lactoglobulin and kappa-casein polymorphism and variability of milk performance traits in Polish Black-and-White cow population maintained in different milk productivity herds 243
6. B. Rejduch, E. Słota, P. Sysa, M. Kościelny, M. Wrzeska, M. Babicz — Synaptonemal complexes analysis of the European wild boars — carriers of the 15;17 Robertsonian translocation 255
7. A. Rekiel, J. Więcek — Characteristics of selected physico-chemical and cytological parameters of sow's milk 263
8. B. Rejduch, E. Słota, P. Sysa, A. Kwaczyńska, A. Kozubska-Sobocińska, B. Danielak-Czech — Diagnosis of a new reciprocal translocation rcp(9;14)(q14;q23) in infertile boar after the synaptonemal complex analysis 269

Biology, physiology and animal reproduction

9. P. Gogol, M. Bochenek — Motility and plasma membrane integrity of rabbit spermatozoa during liquid storage 279
10. A. Mazanowski, M. Adamski — Egg content and eggshell traits in ducks from three maternal strains raised in Poland 287

Animal nutrition and feedstuffs

11. M. Dziuba, A. Rekiel, J. Kulisiewicz — The effect of some feed additives on performance, carcass traits and meat quality of pigs of different crosses 295
12. P. Hanczakowski, B. Szymczyk, I. Furgał-Dierżuk — The effect of soybean or casein protein and different fats on cholesterol and triacylglycerol level in rats 301
13. F. Brzóska, W. Brzeziński, B. Brzóska — Mineral nutrients in Polish feedingstuffs. Part 2. Cereal grains 311

Environment, hygiene and animal production technology

14. J. Walczak — Integrated welfare assessment of group or individually housed dairy cows during lactation 323

-
15. T. Blicharski, G. Żak, M. Pierzchała, R. Eckert — Preliminary studies on possibility of estimating pig belly lean percentage based on slaughter traits measured at a meat plant 333
 16. A. Szewczyk — Changes in serum cortisol level and incidence of stereotyped behaviour in piglets weaned at different times, as an indicator of their welfare 345
 17. A. Mazanowski, E. Gornowicz — Assessment of slaughter value and chemical composition of meat in 8-week-old ducks from maternal strains 355
 18. E. Sosnówka-Czajka, E. Herbut — Physiological and production indicators of broiler chickens exposed to short-term thermal stress 365
 19. M. Ligaszewski, A. Łysak, A. Pilarczyk — Health status, blood picture and heavy metal concentrations in tissues of carp (*Cyprinus carpio* L.) in their third year of rearing in ponds fertilized with cattle slurry 377
 20. L. Tymczyna, A. Chmielowiec-Korzeniowska — Reduction of odorous gas compounds in biological treatment of ventilation air from layer house 389
