Genetics and farm animal breeding

1. A. Radko, M. Hędrzak, T. Ząbek, E. Słota — Efficacy of 11 bovine microsatellite DNA sequences for parentage control in experimental farming of American bison (*Bison bison* L.) in Poland 235
2. U. Czarnik, K. Walawski, T. Zabołewicz, C.S. Pareek — Preliminary evaluation of BM6438 polymorphism as a putative candidate marker for milk performance traits associated with a new breeding concept in Polish Black-and-White cattle 243
3. J. Komisarek, Z. Dorynek — Polymorphisms of leptin and leptin receptor genes in the Polish population of Holstein-Friesian bulls 253
4. W. Jagusiak, A. Żarnecki — Relationship between days open and different herd average phenotypic and genetic levels of production in Polish Holsteins 261
5. T. Ząbek, M. Natonek, M. Bugno, A. Radko — Application of microsatellite multiplexes in parentage testing of Polish Half-bred Anglo-Arabian horses 269
6. M. Tyra, B. Orzechowska, G. Żak — Relationships between ultrasonic and dissection measurements of backfat thickness and *m. longissimus dorsi* of pigs using Piglog 105 and Aloka SSD 500 devices 279
7. A. Kawęcka, P. Paraponiak — Characteristics of milk performance of alpine breeds of sheep and their crosses with Polish Mountain Sheep 287
8. P. Paraponiak, A. Kawęcka — Evaluation of the carcass quality and slaughter value of crossbred rams with various percentages of alpine breeds 297
9. B. Borys, M. Wawrzyńska, G. Elminowska-Wenda, A. Szewczyk — Characteristics of *m. longissimus lumborum* microstructure and slaughter value and meat quality of lambs of different breeds 307

Biology, physiology and animal reproduction

10. A. Wierzchoś — Effect of an electric field on the development of rabbit zygotes 319
11. B. Trawińska, L. Tymczyna, I. Pijarska — Comparison of the serological status of breeder hens of the commercial Cobb and Ross strains 327

Animal nutrition and feedstuffs

12. J. Kraszewski, B. Mandecka, S. Wawrzyńczak — Comparison of feeding efficiency of high-yielding cows in TMR and PMR systems 335
13. K. Bilik, J. Strzetelski — Udder secretory tissue in heifers with high calving rates and their subsequent milk yield according to feeding level during the rearing period 345
14. E.R. Grela, A. Czech, B. Kańczugowska, J.-E. Zerrahn — Efficacy of iron additive in sulphate or chelate form in piglet diet 357
15. P. Hanczakowski, B. Szymczyk — Effect of liquid chitosan preparation on the nutritive value of protein and on profile of selected serum lipids in rats 365

Environment, hygiene and animal production technology

16. A. Chmielowiec-Korzeniowska, L. Tymczyzna, A. Drabik, H. Malec — Biofiltration of volatile organic compounds in the hatchery 371

Economics and organization of animal production

17. S. Okularczyk — Optimum scale of milk production in light of economic studies . . . 379
18. J. Krawczyk, Z. Sokołowicz, M. Ruda — Trends in the profitability of broiler chicken production before and after European integration using the example of a selected farm 387
19. H. Kałuża — Economic and financial situation of table egg producers under competitive conditions 397
