Genetics and farm animal breeding

1. A. Kozubka-Sobocińska, E. Słota, A. Pieńkowska-Schelling, C. Schelling — Comparative hybridization of the Y chromosome in selected species of *Bovidae* 5
2. M. Wnuk, Z. Kotylak, M. Bugno, E. Słota — Karyotype analysis in pigs — hybrids of European wild boar (*Sus scrofa scrofa*) and domestic pig (*Sus scrofa domestica*) 11
3. B. Orzechowska — Predicted progress in improvement of carcass muscling and cuts with indirect selection based on backfat thickness and loin eye area 21
4. P. Paraponiak — Laboratory and sensory assessment of lamb muscle tissue with regard to multidimensional analysis of the discriminatory function 29
5. L. Czaja, K. Dziadek, E. Gornowicz — Quality of table eggs as influenced by laying hen origin 41
6. A. Mazanowski, Z. Bernacki, T. Kisiel — Comparing the structure and chemical composition of duck eggs 53
7. A. Mazanowski, T. Kisiel, M. Adamski — Evaluation of some regional varieties of geese for reproductive traits, egg structure and egg chemical composition 67

Biology, physiology and animal reproduction

8. J. Wiczorek, M. Cegła, W. Kareta — Factors affecting the oocyte recovery rate from ovarian follicles of gilts 85
9. P. Gogol — Iron-induced luminescence of boar spermatozoa cells 91
10. M. Skrzyszowska, M. Samiec, Z. Smorąg — Effect of *in vitro* culture conditions on the developmental potential of porcine nuclear transfer embryos reconstructed with cumulus cells analysed on apoptosis 99

Animal nutrition and feedstuffs

11. F. Brzóska — Effect of soybean meal protected with Ca salts of fatty acids on cows' yield, protein and fat components in milk and blood 111
12. B. Nawińska, J. Strzetelski — Effects of type and frequency of liquid feed on rumen development and rearing performance of calves 125
13. B. Szymczyk — Effects of conjugated linoleic acid (CLA) on pig performance, carcass quality, chemical composition of meat and serum lipid profile 135
14. B. Szymczyk — Effects of conjugated linoleic acid (CLA) on fatty acid composition, lipid oxidation and quality of pork meat 145
15. B. Borys., A. Borys — Effect of the form of rapeseed and linseed in lamb diets on some health quality parameters of meat 159
16. P. Strzetelski, F. Brzóska, W. Brzeziński — Iodine content of green fodder and cereal crops in Poland 171
17. R. Gašior, K. Ślusarczyk, M. Szczypuła — Validation of a method for determining amino acids in acid hydrolysates of feeds 181

Environment, hygiene and animal production technology

18. A. Cisek, A. Balicka-Ramisz, B. Pilarczyk — Prevalence and control of gastrointestinal and pulmonary nematodes in deer in a closed breeding population 199

Economics and organization of animal production

19. S. Okularczyk — Optimum scale of pig fattening on Polish family farms in light of economic studies 207
20. Z. Sokołowicz, J. Krawczyk — Economic efficiency of lengthening the productive life of laying hens through moulting 215
