

## CONTENTS

### Review paper

1. C. Stockinger – The economic efficiency of selected extensive livestock husbandry methods – determination reasons, influence factors and perspectives . . . . . 179

### Genetics and farm animal breeding

2. A. Radko, E. Słota – Polymorphism of 11 microsatellite DNA sequences used for parentage control in Holstein-Friesian bulls of Black-and-White variety in Poland . . . . . 189
3. J. Antkowiak, J. Pytlewski, Z. Dorynek – Effect of cows' body weight on milking performance . . 197
4. A. Radko – Occurrence of null alleles at the loci of microsatellite DNA markers used for parentage control in cattle . . . . . 207
5. A. Kozubska-Sobocińska, B. Rejduch, E. Słota – Genetic conservatism analysis based on G-banded chromosomes of cattle and fallow deer. . . . . 215
6. B. Rejduch, M. Oczkiewicz, M. Różycki – The growth hormone-releasing hormone (GHRH) gene polymorphism and its association with meatiness of Polish Large White pigs . . . . . 221
7. T. Rychlik, A. Krawczyk, J. Sikora – Blood group and blood protein polymorphism in a conservation flock of Wrzosówka sheep . . . . . 227
8. B. Ślaska, G. Jeżewska, M. Pierzchała, G. Zięba – Genetic background of raccoon dog conformation traits and mapping of quantitative trait loci. . . . . 237

### Animal nutrition and feedstuffs

9. M. Pieszka – Effect of supplementing pigs with vitamins E and C and  $\beta$ -carotene in added-fat diets on oxidative stability and oxysterol formation in meat . . . . . 245
10. D. Korniewicz, H. Różański, Z. Dobrzański, P. Kaczmarek, A. Korniewicz – Effect of Herbiplant CS preparation on basic nutrient digestibility and mineral balance and absorption in fatteners . . 259
11. B. Živković, W. Migdał, S. Kovčín, Č. Radović, O. Kosovac – Effects of using plant protein feed as a fish meal replacer in the nutrition of weaned piglets . . . . . 273
12. F. Brzóska, K. Stecka – Effect of probiotic, prebiotic and acidifier on the body weight of broiler chickens, feed conversion, and carcass and meat composition . . . . . 279
13. P. Hanczakowski, B. Szymczyk – Digestibility of different fats and fat deposition in rats . . . . 289

### Environment, hygiene and animal production technology

14. W. Bieda, P. Herbut – Effect of a change in housing system on the productivity of Polish Red cattle using the example of the Cistercian monastic farm in Szczyrzyc . . . . . 295
15. M. Natonek-Wiśniewska, T. Ząbek, E. Słota – Species identification of mammalian mtDNA using PCR-RFLP. . . . . 305
16. A. Węglarz, J. Makulska, B. Tombarkiewicz – Suitability of Polish Red cattle for the production of milk of high biological quality in the ecological management system . . . . . 313
17. I. Skomorucha, R. Muchacka – Effect of stocking density and management system on the physiological response of broiler chickens . . . . . 321
18. E. Sosnowka-Czajka, I. Skomorucha, E. Herbut, R. Muchacka – Effect of management system and flock size on the behaviour of broiler chickens . . . . . 329
19. A. Polonis, M. Dmoch – Heavy metals and some elements in the eggs of factory-farmed hens and backyard hens . . . . . 337
20. M. Natonek-Wiśniewska – Use of PCR reaction to identify fish meals . . . . . 345
