

## CONTENTS

### Genetics and farm animal breeding

1. T. Rychlik, M. Kościelny – Characteristics of phenogroups of the A blood group system in cattle of beef breeds . . . . . 231
2. E. Ptak, W. Jagusiak, A. Żarnecki, A. Otwinowska-Mindur – Relationship between somatic cell score and udder conformation traits in Polish Holstein-Friesian cows . . . . . 237
3. A. Kozubska-Sobocińska, B. Rejduch, M. Oczkowicz, M. Babicz – Genetic conservation of microsatellite sequences in *Suidae* . . . . . 243
4. M. Kawęcka, B. Matysiak, M. Kamyczek, B. Delikator – Relationships between growth, fatness and meatiness traits in gilts and their subsequent reproductive performance . . . . . 249
5. M. Babicz, P. Kamyk, A. Stasiak, M. Pastwa – Opportunities to use Puławska pigs for heavy fattener production . . . . . 259
6. T. Schwarz, J. Nowicki, R. Tuz – Reproductive performance of Polish Large White sows in intensive production – effect of parity and season. . . . . 269

### Biology, physiology and animal reproduction

7. J. Jura, Z. Smorąg, R. Słomski, D. Lipiński, J. Jura, B. Gajda – Comparison of transfection methods for porcine zygotes. . . . . 279
8. B. Ślaska, I. Rozempolska-Rucińska, G. Jeżewska-Witkowska – Variation in some reproductive traits of mink (*Neovison vison*) according to their coat colour . . . . . 287

### Animal nutrition and feedstuffs

9. G. Żak, M. Tyra, M. Różycki – Meatiness and fatness traits of Polish Large White and Polish Landrace pigs differing in fattening traits . . . . . 299
10. J. Doktor, K. Połowicz – Effect of transport to the slaughterhouse on stress indicators and meat quality of broiler chickens. . . . . 307
