

CONTENTS

Review paper

1. G. Żak, M. Pieszka – Improving pork quality through genetics and nutrition 327

Genetics and farm animal breeding

2. J. Pytlewski, I. Antkowiak, R. Skrzypek, K. Kęsy – The effect of dry period length on milk performance traits of Black-and-White Polish Holstein-Friesian and Jersey cows 341
3. E. Ptak, W. Jagusiak, A. Żarnecki, A. Otwinowska-Mindur – Genetic parameters of daily somatic cell score and some conformation traits in Polish Holstein cattle. 355
4. T. Ząbek, A. Fornal – Evaluation of the 17-plex STR kit for parentage testing of Polish Cold-blood and Hucul horses 363
5. A. Kozubska-Sobocińska, M. Bugno-Poniewierska, E. Słota – Application of bovine hetero-some painting probes to analysis of the sex bivalent in rams 373
6. M. Natonek-Wiśniewska – Species identification of feline DNA based on analysis of cytochrome *b* 379
7. T. Rychlik, A. Krawczyk – Class I marker polymorphism in Polish Mountain Sheep of coloured and white varieties. 385

Biology, physiology and animal reproduction

8. P. Gogol – Effect of prostaglandin F2 α on reproductive performance in rabbit does. 395

Animal nutrition and feedstuffs

9. K. Bilik, B. Niwińska, M. Łopuszańska-Rusek – Effect of adding fibrolytic enzymes to periparturient and early lactation dairy cow diets on production parameters 401
10. A. Janocha, M. Osek, B. Klocek, M. Szymańska – Effect of adding 25-hydroxycholecalciferol in plant diets with and without fish meal on rearing results and bones of broiler chickens 415
11. N. Tyutyunnik, A. Unzhakov, E. Svechkina, B. Barabasz – Some biochemical effects of starvation in arctic blue foxes (*Alopex lagopus*). 425
