

CONTENTS

Review

1. I. Grad – Liposomes in gamete and embryo biotechnology 3

Genetics and farm animal breeding

2. A. Radko – Application of a complementary set of 10 microsatellite DNA markers for parentage verification in Polish Red cattle 9
3. K. Oleński, H. Sieczkowska, M. Koćwin-Podsiadła, H. Help, S. Kamiński – A subset of candidate polymorphisms identified by 52 SNPs mini-array in two Duroc sub-populations revealed significant differences in SNP allele distributions 17

The biology, physiology and reproduction of animals

4. J. Opiela, B. Ryńska, L. Kańska-Książkiewicz – BCB test utility evaluated by caspase-3 activity in blastocysts developed from bovine oocytes with different G6PDH level 27
5. J. Wiczorek, Y. Kosenyuk, M. Cegła, B. Ryńska – A new concept in laparoscopic ovum pick-up (OPU) in sheep – efficiency of method and morphology of recovered oocytes 39
6. I. Rozempolska-Rucińska – Reliability of breeding value estimation of laying hens for hatching characteristics 49

Environment, hygiene and animal production technology

7. B. Kavolelis, R. Bleizgys, J. Cesna – Emission of water vapour in uninsulated cowshed 57

Animal nutrition and feedstuffs

8. E. Hanczakowska, K. Węglarzy, B. Szymczyk, P. Hanczakowski – Effect of adding crude or refined glycerol to pig diets on fattening performance, nutrient digestibility and carcass evaluation 67
9. K. Pieniak-Lendzion, R. Niedziółka, E. Horoszewicz, M. Łukasiewicz – Quality traits of meat from goat kids fed a diet with 10% flaxseeds 75
10. J. Koreleski, S. Świątkiewicz – Effect of methionine and energy level in high protein organic diets fed to laying hens 83
11. M. Kamińska, A. Huntchak, F. Borowiec, I. Ratycki, J. Barteczko – Specific features of gastrointestinal tract microbiocenosis in hens and geese 93
