

CONTENTS

Review

1. E. Czerniawska-Piątkowska, E. Chociłowicz, M. Szewczuk – Biology of *Bubalus bubalis* 107

Genetic and farm animal breeding

2. M. Szyndler-Nędzka, M. Tyra, M. Różycki – Coefficients of heritability for fattening and slaughter traits included in a modified performance testing method 117

Animal nutrition and feedstuffs

3. K. Bilik, M. Łopuszańska-Rusek – Effect of adding fibrolytic enzymes to dairy cow rations on digestive activity in the rumen 127
4. J.A. Strzetelski, S. Osieglowski, M. Dymnicka – Effect of concentrate feeding before calving on feed intake, metabolic profile and performance of early lactation cows 139
5. F. Brzóska, B. Śliwiński, O. Michalik-Rutkowska – Effect of herb mixture on productivity, mortality, carcass quality and blood parameters of broiler chickens 157
6. F. Brzóska, M. Pieszka, K. Stecka, W. Mądal, E. Węsierska, M. Walczycka, K. Krzysztoforski, O. Michalik-Rutkowska – Effect of *Pediococcus* Spp. in feed instead of antibiotic on broiler chicken body weight, mortality, slaughter traits and meat quality 167

Environment, hygiene and animal production technology

7. J. Nowicki, T. Schwarz – Maternal responsiveness of sows housed in two farrowing environments measured in behavioural tests 179
8. I. Skomorucha, R. Muchacka, E. Sosnowka-Czajka – Effect of elevated air temperature on some quality parameters of broiler chicken meat 187
