

CONTENTS

Review

1. D. Bederska-Łojewska, M. Pieszka – Modulating gastrointestinal microflora of pigs through nutrition using feed additives 333

Genetics and farm animal breeding

2. M. Tyra, M. Szyndler-Nędza, R. Eckert – Possibilities of using ultrasonography in breeding work with pigs. Part III – Estimation of carcass meat content using regression equations developed from ultrasonographic measurements 357
3. A. Kawęcka, K. Piórkowska – Characteristics of the genetic structure of native sheep breeds 371

The biology, physiology and reproduction of animals

4. E. Chronowska, T. Kott – Optimization of conditions of prolonged culture of pig granulosa cells *in vitro* 383

Animal nutrition and feedstuffs

5. M. Łopuszańska-Rusek, K. Bilik – Fibrolytic enzymes and live yeast cultures in rations for dairy cows – effect on rumen degradability and fermentation. 393
6. J. Koreleski, S. Świątkiewicz, A. Arczewska-Włosek, M. Słonecki – Effect of dietary electrolyte balance on rearing performance of broiler chickens under farm conditions. 405
7. S. Świątkiewicz, J. Koreleski, A. Arczewska-Włosek, M. Świątkiewicz, M. Twardowska, J. Markowski, M. Mazur, Z. Sieradzki, K. Kwiatek – Detection of transgenic DNA from *Bt* maize and herbicide tolerant soybean meal in tissues, eggs and digestive tract content of laying hens fed diets containing genetically modified plants 413
8. A. Gugolek, D. Kowalska, M. Konstantynowicz, J. Strychalski, B. Bukowska – Performance indicators, health status and coccidial infection rates in rabbits fed diets supplemented with white mustard meal 425

Environment, hygiene and animal production technology

9. Z. Nogalski, K. Czerpak, P. Pogorzelska – Effect of automatic and conventional milking on somatic cell count and lactation traits in primiparous cows 433
10. J. Nowachowicz – Fattening and slaughter traits of young boars depending on their growth rate . . 443
11. L. Tymczyna, A. Chmielowiec-Korzeniowska, J. Raczyńska, A. Drabik – Removal of microbial contaminants from pig house air using biofilter organic media 453
12. D. Kowalska, A. Gugolek, P. Bielański – Effect of stress on rabbit meat quality 465
